Loan for NPA Accounts, NPA Finance & OTS Funding Solutions

If your loan account has become a Non-Performing Asset (NPA), obtaining fresh funding from traditional banks can be challenging. At Fund Source, we specialize in providing **loans for NPA Accounts**, **NPA Finance**, **NPA Funding by NBFC**, and **OTS Finance** solutions to help individuals, business owners, SMEs, and corporations overcome financial difficulties and regain financial stability.

An NPA account does not always mean the end of financing opportunities. Many borrowers face temporary financial setbacks due to market fluctuations, cash flow issues, project delays, or economic challenges. Our expert team understands these situations and works closely with clients to arrange suitable funding options that can help revive businesses, settle outstanding dues, and improve financial health.

What is NPA Finance?

NPA Finance refers to specialized funding solutions designed for borrowers whose accounts have been classified as Non-Performing Assets. These financing options are structured to help clients manage existing liabilities, restart business operations, improve working capital, and create a path toward financial recovery.

Whether you are an individual borrower, a business owner, or a corporate entity, NPA Finance can provide the financial support needed to resolve outstanding obligations and restore growth opportunities.

NPA Funding by NBFC

Many borrowers find it difficult to obtain support from traditional banking institutions once their accounts become NPA. This is where **NPA Funding by NBFC** plays a crucial role. Non-Banking Financial Companies (NBFCs) often offer flexible funding structures based on asset value, business potential, and repayment capability.

NPA Funding by NBFC can be used for:

- Business expansion
- Working capital requirements
- Debt restructuring
- Settlement of overdue liabilities
- Project completion funding
- Operational cash flow support

These funding solutions are customized according to the borrower's financial profile and funding requirements.

OTS Finance Solutions

OTS Finance (One Time Settlement Finance) is designed for borrowers seeking to settle their outstanding dues through a negotiated settlement with lenders. Many financial institutions offer One Time Settlement opportunities, allowing borrowers to clear their liabilities at agreed terms.

However, arranging the required settlement amount can be difficult. OTS Finance helps borrowers secure funding for settlement purposes, enabling them to close outstanding accounts and move forward with a stronger financial position.

Benefits of OTS Finance include:

- Faster settlement of NPA accounts
- Reduction in financial stress
- Improved credit profile after settlement
- Better opportunities for future funding
- Support for business revival and growth

Why Choose Fund Source?

At Fund Source, we focus on delivering reliable and professional funding solutions for complex financial situations. Our team evaluates each case individually and provides customized assistance for **Loan for NPA Accounts**, NPA Finance, NPA Funding by NBFC, and OTS Finance requirements.

Our advantages include:
